COMPARING SORBENT PUT-UP CATEGORIES

Sorbents come in various forms to accommodate different applications and needs.

Pads

Perforated making them easy to tear and use. Also available in extra-large and laminated.

Rolls

Place alongside walkways to prevent slip-and-falls from leaks, perforated to be sized as needed.

Split Rolls

A smaller version of sorbent rolls for increased safety with a smaller footprint.

Socks

A moldable sorbent to quickly corral spills and prevent them from spreading. Available in 12, 8 or 4ft. sizes.

Booms

Larger versions of a sock. Can be secured to each other using a steel clamp to contain large spills. Available in 5 in. x 10 ft. or 8 in. x 10 ft. sizes.

Barrel Top Pads

Designed to be placed on standard 55-gallon drums to prevent leaks from reaching the floor.
