

SELECTING THE RIGHT WIPER FOR THE JOB

SPECIALTY

SUBSTRATE

WEIGHT & PUT-UP

LIGHT-DUTY

HEAVY-DUTY

	 BEST GENERAL WIPER Multi-purpose wiper for general cleaning & wiping	 STRONGEST WIPER Durable on rough surfaces & solvent resistant	 LOWEST LINTING WIPER For critical wiping tasks & solvent compatibility	 BEST WIPER FOR GLASS A streak-free shine for reflective surfaces
	Double Re-Creped (DRC) Made using a propriety paper-based nonwoven process that utilizes recycled fibers.	WaterWeave (Hydro-entangled) Made using high pressure water jets to entangle polypropylene and cellulose fibers together.	Spunlace Made from a web of fibers that are bonded together using water jets.	Scrim Made with a nylon "scrim" webbing that is then sandwiched in between 1-2 layers of tissue.

IDENTIFYING THE PERFECT PUT-UP

Wipers come in a variety of dispensing options to accommodate different applications and needs.

Quarterfold

Folded and stacked for easy access in limited spaces like workbenches or countertops.

Center-Pull Box

Keeps perforated wipers protected until use. Pull from box with one hand and carry from job to job with convenient, built-in handle.

Center-Pull Roll

Center-pull roll wipers dispense from the center for use with an economical wall mounted center-pull dispenser.

Pop-up/Interfold

Recycled cardboard box dispenses a single wiper at a time. Ideal for areas with high levels of grease and grime

Small Roll

Designed for maximum portability and simple dispensing. Can mount using a kitchen towel dispenser

Big Grip® Dispenser & Refill

Water-resistant with built-in handle for easy transportation or for use with proprietary wall mount for easy use or storage. (Big Grip® refills sold separately)

Jumbo Roll

Highest-volume roll that fits on a fixed wall mount clearing floor space or a mobile floor stand dispenser
